Adult Psychiatric Inpatient Services

Our Vision is
partnership in Mental Health

Halton Healthcare

Adult Psychiatric Inpatient Service

We are an Acute Psychiatric Inpatient Unit which provides crisis intervention, psychiatric assessment and short-term treatment and stabilization for adults who cannot be safely or effectively treated on an outpatient basis.

The Psychiatric Inpatient Unit consists of acute psychiatric beds and a Psychiatric Intensive Care Unit designed and staffed to offer high intensity nursing care.

THERE IS HOPE

Our Mission:

Our Mission is to provide Evidence Based Mental health Care that respects each person's life story, experiences, values and beliefs. We offer an environment that is client-centered and recovery focused.

We are a smoke free facility which offers smoking cessation strategies and nicotine replacement.

We care for people using a collaborative multidisciplinary team approach. The team consists of the Patient; Psychiatrists, Registered Nurses, Registered Practical Nurses, Social Workers, Occupational Therapist, Occupational Therapy Assistant, Pharmacist and Dietician. We offer a combination of therapeutic one to one and group sessions based on your individual needs.
