

Patient Safety Initiatives

SAFETY CHAMPIONS

In order to ensure that safety concerns and success at the front-line are shared within each hospital department and across the organization, Halton Healthcare Services has introduced the role of *Safety Champions*.

Each department and patient care unit has identified one or two *Safety Champions* who work alongside their colleagues and managers as safety ambassadors in order to:

- Learn about, promote and support local safety efforts in each department
- Set-up systems to help ensure accountability and effective communication
- Continue to cultivate a culture of 'safety always' where patient safety continues to be our top priority
- Identify and prioritize patient safety challenges and help spread safety initiatives across the organization.

These *Safety Champions* work together as a team of ambassadors to keep patient safety as an integral part of our culture of excellence!

Pictured above are some of our Safety Champions
